Dear fellow breeders and friends of the Kalahari

We would like to welcome all to the first GROOT KALAHARI VEILING

GROOT KALAHARI
VEILING

There is something about the red sand of the Kalahari that settles deep in one's heart. It is this shared connection that brings together three respected wildlife breeders from this remarkable region: Japie van Niekerk of Kalahari Genetics, Louis van der Watt of STS Meletse, and Piet du Toit of Piet du Toit Wildbedryf.

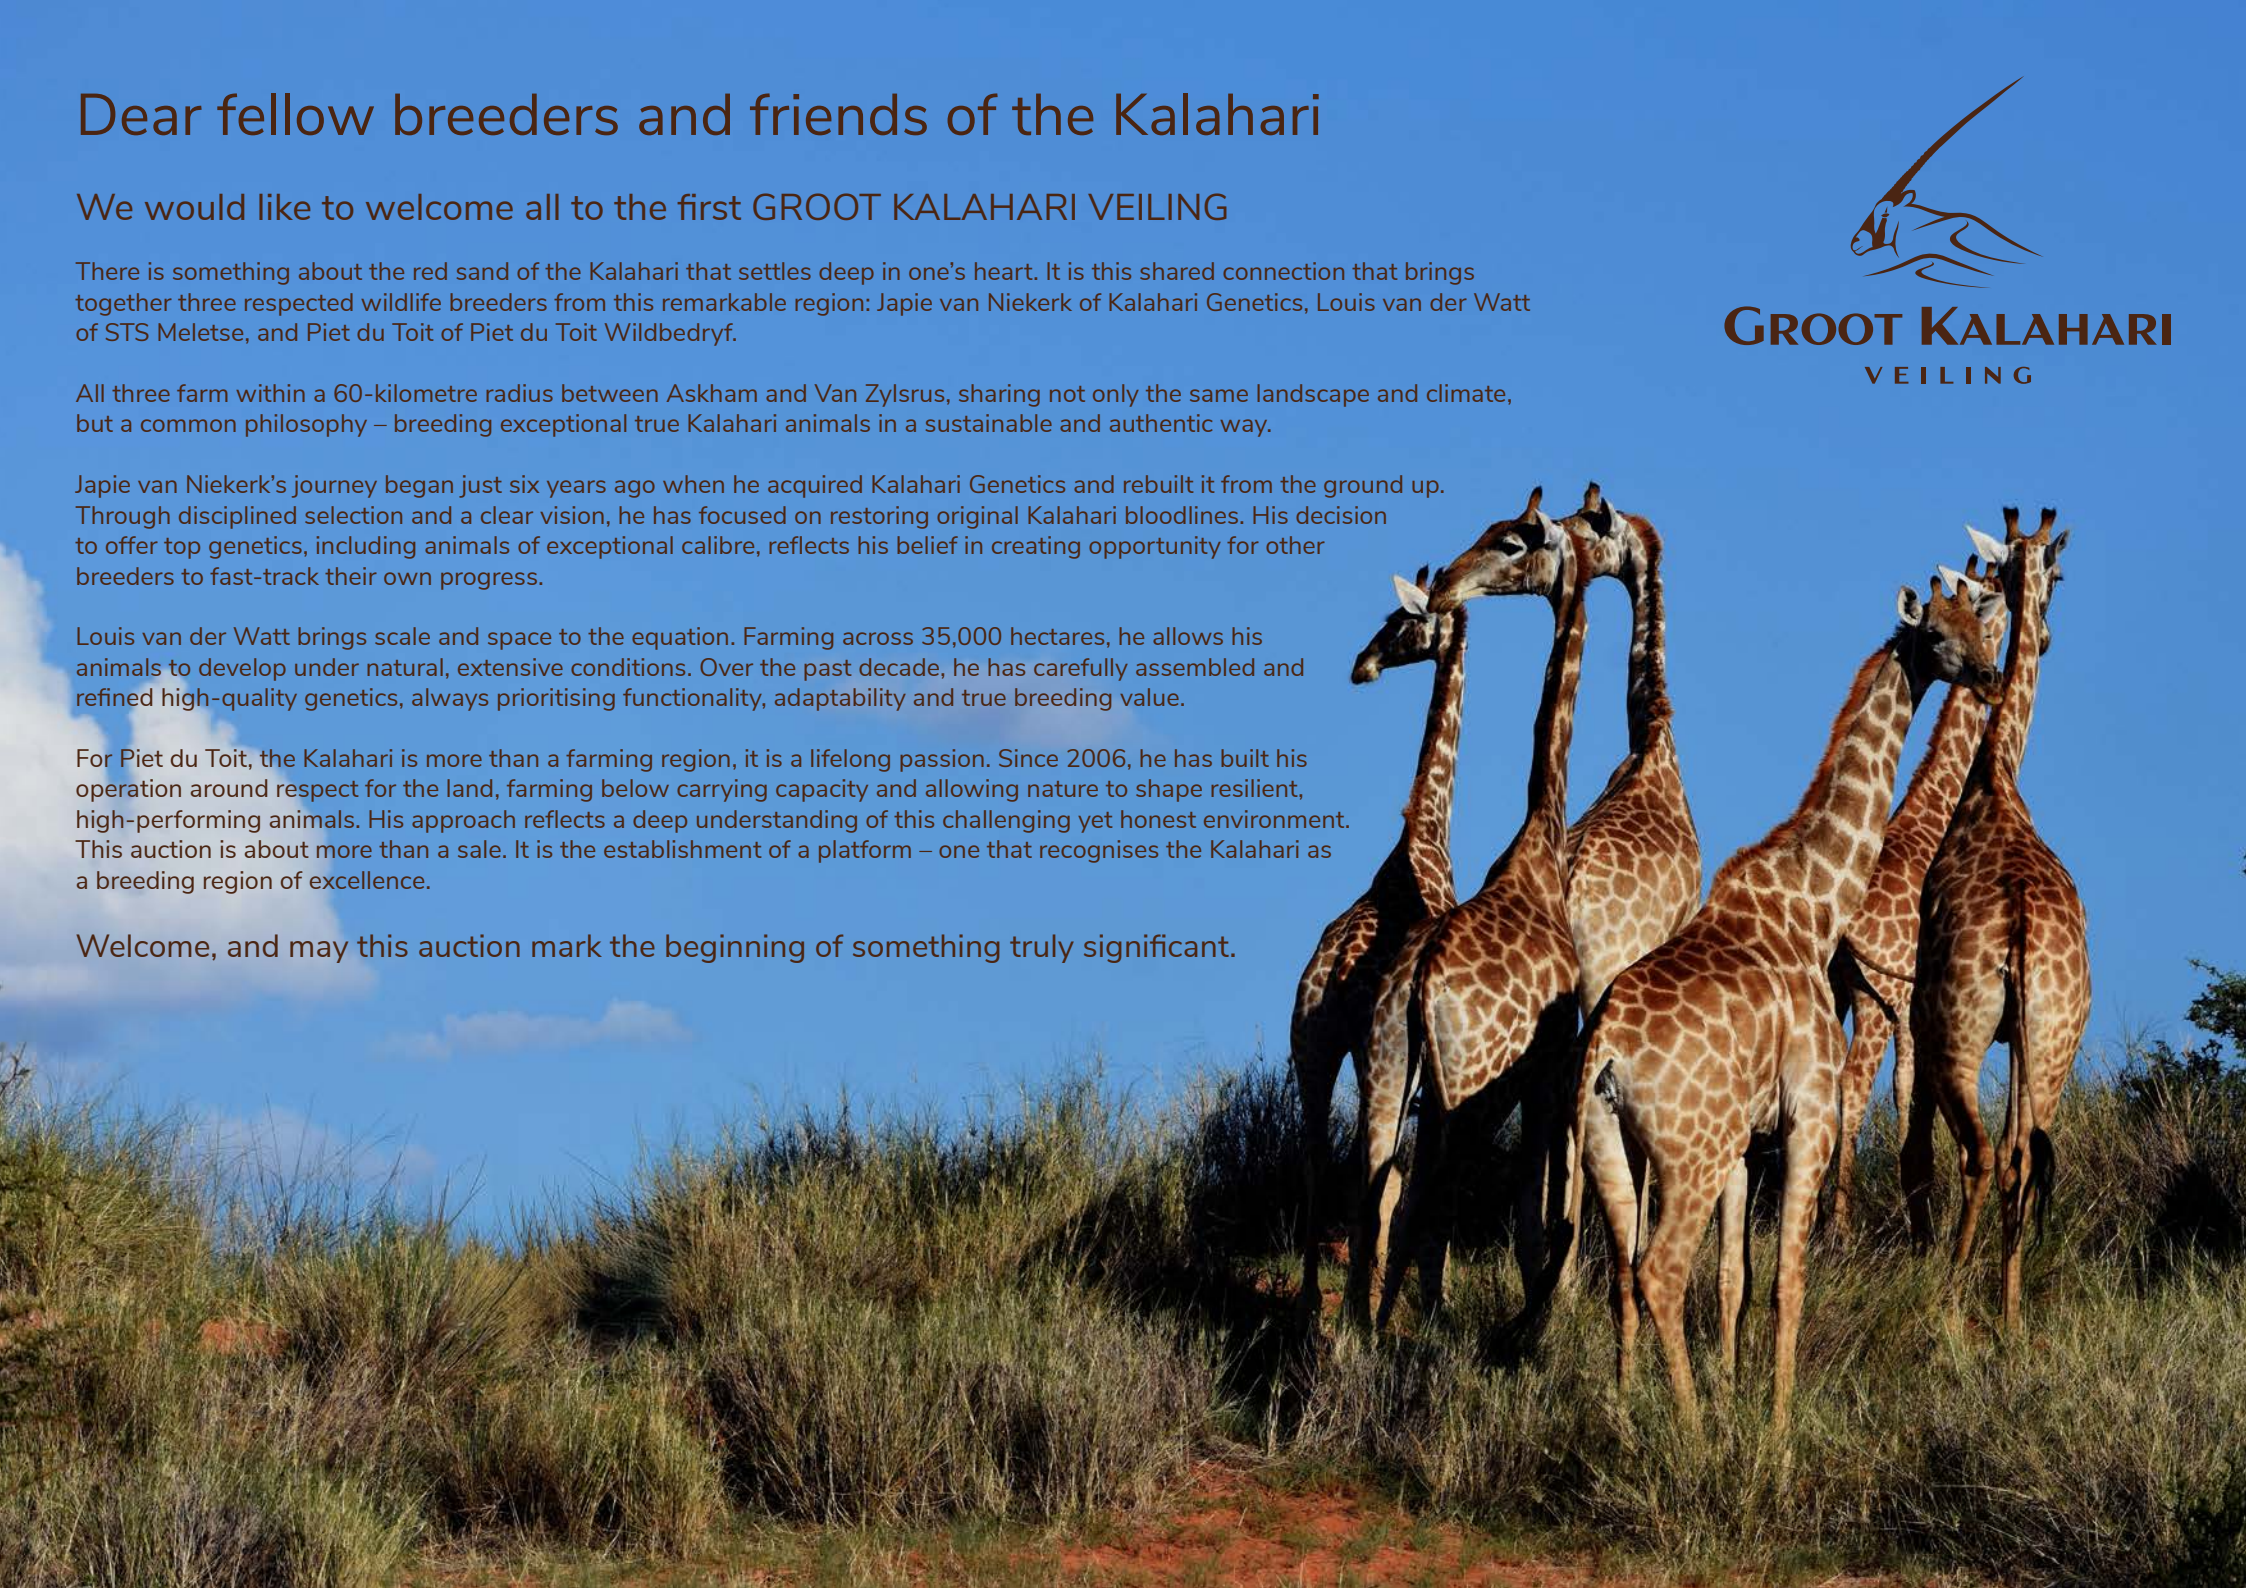

All three farm within a 60-kilometre radius between Askham and Van Zylsrus, sharing not only the same landscape and climate, but a common philosophy – breeding exceptional true Kalahari animals in a sustainable and authentic way.

Japie van Niekerk's journey began just six years ago when he acquired Kalahari Genetics and rebuilt it from the ground up. Through disciplined selection and a clear vision, he has focused on restoring original Kalahari bloodlines. His decision to offer top genetics, including animals of exceptional calibre, reflects his belief in creating opportunity for other breeders to fast-track their own progress.

Louis van der Watt brings scale and space to the equation. Farming across 35,000 hectares, he allows his animals to develop under natural, extensive conditions. Over the past decade, he has carefully assembled and refined high-quality genetics, always prioritising functionality, adaptability and true breeding value.

For Piet du Toit, the Kalahari is more than a farming region, it is a lifelong passion. Since 2006, he has built his operation around respect for the land, farming below carrying capacity and allowing nature to shape resilient, high-performing animals. His approach reflects a deep understanding of this challenging yet honest environment. This auction is about more than a sale. It is the establishment of a platform – one that recognises the Kalahari as a breeding region of excellence.

Welcome, and may this auction mark the beginning of something truly significant.

DECLARATION - GROOT KALAHARI VEILING

- The sellers declare that strict biosecurity and operational protocols are implemented and maintained on their farms of origin before, during, and after the auction.
- All participating sellers confirm that, to the best of their knowledge, their farms are free of Foot-and-Mouth Disease (FMD).
- The onus rests on the buyer to inform themselves of the risks associated with FMD. SPECIAL RULES

- Should a seller be identified as FMD positive prior to the capture of the sold animals, the seller undertakes to immediately notify the buyer and either mitigate the matter in accordance with the prescribed veterinary protocols or as a last resort cancel the transaction.
- If a seller's farm is placed within an FMD management area prior to delivery, the seller undertakes to retain the purchased animal(s) on the source farm at no cost to the buyer until lawful movement is permitted.

During this holding period:

- The animals shall remain at the seller's sole risk and responsibility.
- In the event of injury or loss during this period, the seller shall either replace the animal with one of comparable quality, subject to the buyer's reasonable satisfaction, or provide a full refund of the purchase price.

- Should the buyer's receiving farm test FMD positive or be placed within an FMD management area prior to delivery, the seller agrees to retain the animal(s) on the farm *of origin* at no cost for a six-month period, unless otherwise agreed between buyer and seller.

During this holding period:

- The buyer shall provide official written confirmation from the relevant State Veterinary Authority confirming the applicable restriction.
- Risk shall transfer to the buyer.
- Purchase funds shall be released to the seller.
