Foot-and-Mouth Disease (FMD) Declaration and Special Conditions of Sale

Stud Game Breeders — EST. 2005

Declaration

- Each seller declares that appropriate biosecurity measures and operational protocols are implemented and maintained on their property to minimise the risk of Foot-and-Mouth Disease (FMD).
- Each participating seller confirms that, to the best of their knowledge and based on the information available at the time of the auction, their property is not subject to any confirmed FMD infection or official movement restrictions relating to FMD.
- Buyers acknowledge that they are solely responsible for informing themselves of the risks associated with FMD and for ensuring compliance with all applicable legislation, State Veterinary requirements, movement protocols and permit requirements applicable to the destination property, district or province prior to taking delivery of the purchased animals.

Special Conditions

1. Seller placed under FMD restrictions prior to capture

Should the seller's property be confirmed as FMD positive or be placed under official FMD movement restrictions before the purchased animal(s) are captured for delivery, the seller shall immediately notify the buyer.

The seller shall use all reasonable efforts to resolve the matter in accordance with the applicable veterinary protocols and movement regulations. Should lawful movement ultimately not be possible, the seller reserves the right to cancel the transaction and refund the buyer in full.

2. Seller unable to deliver due to movement restrictions

If the seller's property is placed within an FMD Management Area or becomes subject to official movement restrictions prior to delivery, the seller shall retain the purchased animal(s) on the property at no cost to the buyer until lawful movement is permitted.

During this period:

- The seller shall remain responsible for the care, welfare and management of the animal(s).
- The animal(s) shall remain entirely at the seller's risk.
- Should any animal die, become injured, infertile or materially diminish in value during this period, the seller shall, at the buyer's election, either:
  - replace the animal with another of comparable quality, subject to the buyer's reasonable approval; or
  - refund the full purchase price.

3. Buyer unable to receive animals

Should the buyer's receiving property be confirmed as FMD positive or be placed under official movement restrictions prior to delivery, the seller agrees to retain the purchased animal(s) on the property of origin for a period of up to six (6) months, unless otherwise agreed in writing between the parties.

During this period:

- The buyer shall provide written confirmation from the relevant State Veterinary Authority confirming the movement restriction.
- Ownership and risk in the animal(s) shall pass to the buyer upon payment being released to the seller.
- The purchase price shall be released to the seller in accordance with the auction conditions of sale.
- The seller shall continue to provide reasonable care for the animal(s) at no cost to the buyer.

4. Extended movement restrictions

If movement of the purchased animal(s) remains prohibited for a continuous period exceeding six (6) months due to FMD restrictions affecting either the seller's or the buyer's property, and no mutually acceptable alternative arrangement can be reached, the seller shall have the right to cancel the transaction and refund the buyer the full purchase price. Upon such refund, neither party shall have any further claim against the other arising from the sale.

Acceptance

By participating in the auction, both buyers and sellers acknowledge that they have read, understood and accepted these FMD Conditions of Sale, which are intended to fairly protect the interests of both parties while ensuring compliance with all applicable veterinary legislation and disease-control measures.
